

## About solutions by stc

solutions by stc are the leading information and communication technology (ICT) services provider and digital transformation enabler at the forefront of digitalization in the Kingdom of Saudi Arabia, supporting Vision 2030's aspirations. In a rapidly evolving digital environment, our services play a pivotal role in empowering both the public and private sectors to embrace and thrive in the new digital era.

Showcasing our commitment as a trusted partner, we deliver value through technology to our clients by addressing their business challenges in a holistic and comprehensive "one stop shop" approach across the entire IT value chain.

solutions by stc have a wide and diversified portfolio of offerings covering the end-to-end ICT value chain encompassing core ICT services, IT managed and operational services, and digital services. The Company's unparalleled capabilities that span the entire ICT value chain are perfectly positioned to be the partner of choice for the Business-to-Business (B2B) sector.

As a frontrunner in the ICT industry within the Kingdom of Saudi Arabia, solutions by stc have embarked on an ambitious growth strategy intended to reinforce its position as the leading ICT services provider in the Kingdom of Saudi Arabia and to diversify the portfolio of offerings. The Company's growth strategy focuses

on strengthening core capabilities in competitive growth areas, enriching next-generation offerings, expanding geographic reach, and accelerating efforts to improve efficiencies across the board with a dedicated focus on innovation and sustainability. As a major player in the ICT ecosystem and value chain, solutions by stc's successes contribute to the Kingdom of Saudi Arabia's development and the success of our stakeholders.

Despite periods of market volatility, solutions by stc's share price continued to demonstrate resilient performance. As of 31 December 2025, the Company's share price reached ₪ 225.1, resulting in a market capitalization of approximately ₪ 27.0 billion (USD 7.2 billion). Supported by a strategy focused on sustainable growth and strong profitability, the Company remains well positioned to continue creating long-term value for its investors, partners, and other stakeholders.

### Vision

To create a digital ecosystem enabling our customers to achieve sustainable growth, regionally and globally.

### Mission

To provide technology solutions to businesses addressing their needs and challenges to succeed in evolving market conditions.

### Values

#### Dynamism

We're driven to enlighten and spark imagination. Our point of view is not literal. It brings a new vision and inspires others to see the world in a more ingenious way. We arouse enthusiasm around the promise of better things to come.

#### Devotion

Our style is human, not because it focuses on people, but because it is warm, simple, and clean and it eliminates superfluous details to achieve quality and clarity.

#### Drive

Focused on what's important, displaying the reason why, how, or where things happen, conveying the idea of movement, with agility and progression.

## About solutions by stc continued

### What we do

#### Core ICT services

System Integration (SI) services cover a variety of organizational needs across the value chain, enabled by our strong local and global partnership ecosystem. These services include advisory, design, implementation, and integration of networks, infrastructure, and applications, which are offered through custom engagement models to our customers.

solutions by stc's communication and internet services address high-end connectivity needs of organizations within cities and remote locations by providing dedicated, secure, and high-quality business internet and satellite services through the wholesale purchase of communication capacity from telecommunication providers.

#### IT managed and operational services

Managed services include end-to-end management of business networks and systems with the capability to deliver customized managed services projects to serve the individual needs of customers, which help them grow and improve their businesses.

We create value by increasing efficiency, providing better services, improving operations, and monitoring and resolving problems by managing the components of our customers' technical infrastructure such as network, servers, storage, devices, and applications.

Business outsourcing services cover services in the domains of human resources (HR), customer care, and other shared services enabled by technology and automation to optimize outcomes. The Company partners with customers by utilizing a variety of business models to deliver services. This business vertical has strong momentum given the focused efforts by the Saudi Government towards privatization in line with the aspirations of Saudi Vision 2030.

#### Digital services

Cloud services include the full spectrum of data center and cloud services as well as multi-cloud professional and managed services for all the hyperscalers helping clients to optimally manage their cloud investments.

Digital services consist of digital transformation services; providing digital solutions to connect, monitor, and analyze machine/device data for informed and effective decisions, and redesigning how businesses are conducted to enhance customer experience – these include but are not limited to application services.

Cybersecurity integration provides security services covering all stages of the IT value chain, including planning, design, implementation, and project management of technical solutions that cater to the specific security needs of enterprises.
