

Position Statement

Environmental Management

Objective

solutions by stc ('solutions', 'we', 'our') underscores the significance of safeguarding natural environments and addressing the challenges posed by climate change.

This Position Statement demonstrates solutions' commitment and responsibilities regarding protecting the environment and outlines the relevant measures, initiatives, laws and regulations. Our aim is to foster environmental stewardship among our stakeholders, in harmony with prominent national and international guidelines for optimal environmental management, and cultivate a culture of environmental awareness and protection.

Scope

This Position Statement encompasses all the functional and collaborative domains of solutions. It applies to every aspect of our operations, as well as interaction with suppliers, partners and customers.

Commitments

Environmental Management

solutions is dedicated to maintaining a robust environmental management system. Our objective is to consistently enhance our environmental monitoring practices, utilizing our existing Integrated Management System (IMS) in accordance with the guidelines and requisites of the ISO 14001:2015 Environmental Management System (EMS).

Position Statement

We are firmly committed to conducting periodic assessments of environmental-related aspects and reporting updates to the Sustainability Committee, this includes environmental metrics, progress and issues. Furthermore, all outcomes, programs, and initiatives pertaining to the environment are transparently disclosed within the annual Sustainability Report.

Environmental Impact

▶ Climate Change & GHG Emissions

solutions is dedicated to addressing the adverse impacts of climate change. In pursuit of this commitment, we are resolute in mitigating climate-related risks and minimizing our carbon footprint. This will be achieved through a comprehensive assessment of Greenhouse Gas (GHG) emissions stemming from our operations and provide guidelines to our supply chain, partners and customers.

▶ Energy Efficiency

solutions is committed to increase energy efficiency in our operations and foster a culture of energy efficiency in all interactions with our customers.

▶ Waste

solutions is dedicated to minimizing waste and e-waste generation in our operations and the disposing of waste in a safe and responsible manner. We are committed to promote e-waste recycling by partnering with governmental entities across our operations.

Position Statement

▶ Water

solutions is committed to decrease our water consumption throughout our operations realizing that we operate in a country on 3rd rank in water scarcity. (source: <https://sdg6data.org/en/indicator/6.4.2>)

▶ Biodiversity

solutions endeavor to safeguard biodiversity in the areas where we operate. We are dedicated to preserving the natural habitats and ecosystems while also ensuring the responsible use of natural resources.

Environmental Engagement

At solutions, we are deeply committed to fostering awareness and engagement among our stakeholders regarding environmental aspects. We pledge to actively communicate our sustainability initiatives and environmental performance to our customers, employees, partners, suppliers, and communities. Through continuous dialogue and transparent reporting, we aim to raise awareness, share knowledge, and collaborate with our stakeholders to collectively promote responsible environmental practices and contribute to a more sustainable future.
